Subject: USFS Pass Quarry (S/027/0121) - bond release concurrence

Hi Rob,

We received Millard County's request for bond release, and I'm drafting the release letters. We received your May 15, 2015 letter concurring with an partial release in an unspecified amount. Later, we communicated indirectly about releasing all but \$6,000, which would cover revegetation. Please see the forwarded email with

explanation.

Usually we require concurrence with other agencies on the specific amount of the release. Could you respond by email to confirm that USFS concurs with the release of all but \$6,000 for this site?

There's a chance I may need a signed USFS letter, but let's try an email first, if you concur.

Thanks. Hopefully your Thanksgiving was good.

Peter

Hi Daniel,

The existing surety principal is \$14,600. There should be some interest accrued on it as well.

We typically hold back \$1,000 per acre for revegetation, plus \$1,000 to mob/demob. Since the site is 5 acres, we plan to approve a release \$8,600 (all but \$6,000). Let me know if this isn't clear.

Yes, the permit ID is S/027/0121.

We also received concurrence from the USFS for the partial release.

I assume you have this, but if not, here's the bond release form that we request you send us, and which needs Jim Withers' signature:

https://fs.ogm.utah.gov/PUB/MINES/Minerals_Related/FORMS/MR-SITE.pdf

Let me know if you have any other questions. Thanks.

Peter

Peter,

Jim Withers with Millard county has asked if we would assist them in filling out the information for the partial bond release on the USFS Pass Quarry. I have looked through the paperwork and have a couple of questions. I'm not sure on the amount of existing surety or for the amount to request for release. From the information I have it was recommended by you and the USFS for the partial bond release. The other question I have is regarding the Permit ID#. From the documentation we have saved on file from the permit we reference file number S/027/0121. Can you assist me with some of these items?

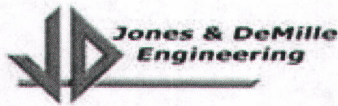

Thank You,

Daniel Hawley
